

Executive Summary

The purpose of this meeting is to begin work of developing and implementing the IE Framework for new ASU. Discussion of the IE framework proposed in the ASU-DSC Consolidation Prospectus will take place in addition to review of terminology document.

Agenda

1. Welcome
2. Review of February 9 meeting minutes
3. ASU's IE Framework
 - a. Discussion (what will this look like? What will we discuss? I suggest going briefly through what will be assessed in terms of programs/departments. Provide them with a list of what programs and divisions maybe? Also, I believe there are still questions about the committee members role on the committee, what's expected of them, what will they have to do)
4. Terminology Document
 - a. Review Definitions (They can read the definitions if we provide them so maybe choose five that are key to know for this phase in the process and go into detail with those?)
5. GoView/D2L Institutional Assessment Resource Page
 - a. Update on Access
 - b. Its Purpose
6. Action Steps
 - a. Next Meeting
 - b. Development of Reporting Documentation (not sure what this means)
 - c. Introduce Campus Labs (what will we say exactly or how and who will introduce)
